Welcome Guest!

All HFC systems now use the same universal password for access. Use your network password for WebAdvisor. All new users should change your password before using WebAdvisor. New user passwords are temporary and will expire quickly!
[Click here to change your password.](#)

WebAdvisor is unavailable during weekly system backup and maintenance. The system will be down from 11:00pm on Saturday until 3:00pm on Sunday.

Mobile/Smartphone Users - Download Our App
To access the features of WebAdvisor on the go, download the Ellucian GO app for your [Apple](#) or [Android](#) device. Search for Henry Ford College after you've downloaded the app.

As many faculty members may know, submission of grades can sometimes be difficult with WebAdvisor, because of “time outs” and failed submissions. The College has learned from Ellucian, the company that owns our student information system, Colleague, otherwise known as “HANK”, that WebAdvisor will soon be eliminated, as many parts are no longer functioning.

The Offices of the Registrar and Information Technology Services are excited to share with you that grading will get easier with the new **Self-Service** module, which will be active on April 22, 2018.

Now, all you'll have to do is login to WebAdvisor click “Faculty”, click “Login”, then select the new category of “Grades, Rosters, Attendance”, then select your course, select the “Grading” tab and then select “Final Grade” and then begin entering your grades. This format is more user friendly and the good news is that the grades save as you enter, so you no longer have to worry about the “time out” issue. Detailed grading instructions will be sent by email to faculty members. The Office of the Registrar is available to make departmental presentations if requested. If you are a faculty member requiring assistance with the entry of your grades,

please contact the Office of the Registrar or Enrollment Services at 313.845.6403 or registrar@hcc.edu.
