

80 Years

1938-2018

Henry Ford College

“ I like that you can target your donation to support the causes you know will help students. Part of my donation goes to encourage STEM students to participate in a competitive test and part of my donation supports the Black Male and QUEENS Focus Group, promoting retention across disciplines. ”

Jeff Morford
Instructor Math Department

Why We Give...

To help Henry Ford College continue on its path of educational excellence — supporting promising students with scholarships, providing resources for innovative programs and maintaining our future driven campus community — we ask you to join us.

“ I am proud to provide financial support to Henry Ford College to continue having this dynamic institution serve both the educational needs of our diverse student population and enrich our Dearborn and surrounding communities' with cultural, educational and athletic events. As a Dearborn resident for 46 years and a veteran HFC faculty member, I recognize and appreciate the benefits of keeping this thriving college as the community's first and best choice. ”

Maureen Webster, Ph.D.
Counselor in Assisted Learning Services

“ I support HFC through my giving because I see firsthand how hard our students work to achieve their education. By giving, their pathway to a successful education might be a little easier. ”

Kathy Dimitriou
Executive Assistant
Office of the President

“ I invest in HFC because I was so fortunate to be able to return to college many years after earning my first degree through the generosity of scholarship donors, I believe it is important to help other students achieve their goals. I would much rather see them go to college and make a difference in the world and their community. ”

Gregory Ward, Lab Tech
Business, Entrepreneurship and Professional Development

A note from the President

Eighty years of academic excellence. Henry Ford College (HFC) is more than just a college — we are the gateway to the future for the more than 21,000 students who walk through our doors each year. As your new president, I am excited and optimistic about our future.

Our College has the distinction of being one of the oldest community colleges in Michigan, and we are proud of the vast number of lives we transform every year.

The faculty, staff and I will work together to uphold our 80-year heritage of access to education as a path to societal prosperity. We are committed to ensuring that our students emerge with stronger, brighter futures.

As I begin this journey as president at HFC, my family and I are proud to be a part of this community. Thank you for 80 years of support in our mission of educational excellence. I look forward to the positive impact we will make in southeast Michigan. We are in this together!

Russell A. Kavalhuna, J.D.
Henry Ford College President
